

Gillison's

GVF DOUBLE INCLINE FRUIT & NUT HARVESTER

Manufacturer of Quality Farm Equipment Since 1977

Some Features & Advantages of our improved harvester are:

- Tough, heavy duty construction
- Superior operator visibility
- Lower conveyor angles than the competition
- Exceptional maneuverability
- Diesel engines with monitors and shut down system
- Efficient all wheel, Poclain 2 speed wheel motors
- Eaton hydrostatic transmission

many more features listed on back

Receiver Side

Unmatched Versatility & Dependability

Shaker Side

**This machine targets
uneven orchard terrain.**

Gillison's Variety
Fabrication, Inc.

3033 Benzie Hwy. Benzonia, MI 49616 (231) 882-5921 (800) 392-6059 www.gillisons.com

Shaker Side	Receiver Side
Diesel engine with monitors and shut down system	Diesel engine with monitors and shut down system
Efficient all wheel, Poclain 2 speed wheel motors	Efficient all wheel, Poclain 2 speed wheel motors
Eaton hydrostatic transmission	Eaton hydrostatic transmission
Vickers pressure compensation hydraulic functions	Vickers powered hydraulic control functions
All hydraulic decks	All hydraulic decks
Hillside kit	Fruit saver conveyors
OMC Shockwave shaker head with head brake	Forks that lift, tilt and roll
31 x 15.50 Sure Grip tires	31 x 15.50 Sure Grip tires
Joystick controls	All wheel steering
Cutout for better operator visibility	Large 24" low conveyor design with fruit savers and 1 ½" cleats to provide smooth flow of fruit to lift conveyor
Heavy duty construction	Large 30" lift conveyor design with fruit savers and 1 ½" cleats which eliminate fruit tumbling
Variable control of shake pattern	Conveyors and fans are equipped with electric on/off controls, and individual speed control of each function
	Shorter wheel base provides exceptional maneuverability
Options:	Options:
Computer controlled anti-slip system	Computer controlled anti-slip system
Lights	Lights
Custom canopy sizes	Custom canopy sizes
Fruit retainers	
Rear steering	
Head lubrication kit
