

# Gillison's

## GVF FLEX WING MOWER

*Manufacturer of Quality Farm Equipment Since 1977*

### About the mower...

Gillison's has designed and manufactured a 13 ft. flex wing mower. We started with a 15 ft. Bush Hog 2615 Batwing and built our own smaller wing sections. The wings are not cut down but built from scratch right here at Gillison's. The unit features a deck ring, perma level hitches and a three-year gearbox warranty.

### Unmatched Versatility & Dependability
