

Gillison's

GVF ROTO SPRAY ROTATING AIR HEAD KIT

Manufacturer of Quality Farm Equipment Since 1977

Standard Features Include:

- 285° rotation for better air control.
- Four adjustable air outlets.
- Hydraulic rotate.
- Electric powered distance adjustment.
- Heavy duty construction.
- **Options:**
 - Electric spray valve.
 - Single nozzle kit.
 - Flipover nozzle kit.

The Roto Spray is designed to give you the performance you need for those hard to reach spraying jobs. 285° rotation lets you take advantage of the wind conditions at all times. A baffled airhead with four air outlets enables you to get even coverage throughout the spray pattern.

Unmatched Versatility & Dependability

Maximize Your Coverage On:

Blueberries	Christmas Trees
Grapes	Nursery Stock
Strawberries	Young Orchard Trees
Row Crops	

Designed to fit new and used FMC sprayers.

Fits most models of John Bean and Durand Wayland.
